

I am writing you to voice my support for the 3 bills referred to above. I am an avid hiker, cross country skier and mountain biker. The quality of life in our state is greatly dependent on access to public (or privately owned) lands for recreational use. Anything that threatens that access should be opposed. That is why I am in favor of the bills which would grant landowners immunity from liability. The West Hartford MDC case that brought this to our attention is a good example of one person ruining things for everyone. I'm still amazed that the judge awarded any settlement--let alone one of that size.

Please feel free to call me or respond to this email if you have any questions or comments for me.
